

Connected by Threads II - Exhibition Guidance

Please ensure that all work is labelled with the title, the name of the artist & the price on the back. Please use a hanging luggage label attached to the picture cord at one side as well, with the title & embroiderer's name on it - this really helps with labelling.

The labels will be made as soon as we receive the form - don't worry if the work is not complete when you submit the form - send us the information anyway.

Every item must have appropriate hanging devices - the work hangs from picture hooks, so no mirror plates please. D-rings facing inwards are fine with a string. Please note that it is difficult to hang very heavy glazed work.

Please label every item of packaging with your name & the title of the work. Cloth or bubble wrap bags are preferred - please do not use sticky tape & bubble wrap as we would have to cut the packaging to access the work.

Last time, the local branches & Regional committee members worked hard with the stewarding. Please try to volunteer for at least a half-day session as we ideally need 3 people for each slot. Thank you for supporting the Regional Exhibition
